More info...

The U.S. should conduct research to compare the effectiveness of innovative programs aimed at preventing unintended pregnancy, according to a report issued Tuesday by a congressionally convened Institute of Medicine panel, the New York Times reports (Meier, New York Times, 7/1).

Pregnancy

LaFollette takes on teen pregnancy problem (WBIR-TV Knoxville)

LaFollette opened its first and only teen pregnancy center Thursday. The Catholic Charities facility will welcome anyone and won't charge for services.

Mum's weight gain during pregnancy puts daughter at higher obesity risk (New Kerala)

Washington, July 3: A new study has revealed that mother's weight and the amount she gains during pregnancy both impact her daughter's risk of obesity decades later.
